

### SAFETY REPRESENTATIVE TRAINING PROGRAM

This training program has been customized for the educational sector. It has been designed as an introductory program or as a developmental program for those working as Occupational Safety and Health Representatives. Upon completion of all modules and module elements, the student will receive a Program Completion Certificate (OSH Representative).

Everyone is a representative of safety, as it is all our responsibility. This training program teaches safety awareness and helps each worker recognize and reduce the risks of jobsite hazards. This program aligns with the curriculum set forth by the OSHA Hazard Recognition Training Awareness Program. Each student will cover general industry hazards, and is intended as an orientation to OSHA standards. Workers taking general industry OSHA courses usually have industrial or technical jobs related to health care, factory, construction, oil and gas, warehouse, manufacturing, storage and more.

OSHA recommends workplace safety training for a safe and healthful work environment. Our training is 100% online and covers specific OSHA regulations and requirements as they apply to the general industry. AES E-Learning as other more specific training targeted at specific industries and has also developed client specific training (i.e. company orientation, in-services, policies and procedures, etc.).
